# Brilliant sound experience

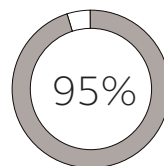

## CLEARER SPEECH

Building on years of innovation, we continue to pioneer hearing aid technology that helps people hear better in their everyday lives. Our unique solution makes it easier for you to pick up speech and sounds from different directions in your environment. From the bustling street to the quiet theatre, you can focus on the conversation and still hear the sounds around you.

## FULLER SOUNDS

There are now virtually no limits to your sound experience with ReSound LiNX Quattro, and you can hear it in the finer details. Both low and high-pitched sounds are natural and fuller. Quiet situations are truly quiet and louder sounds are comfortable, crisp and distortion-free. Sounds such as the call of birds to the laughter of children and the notes in music, are now more accessible and enjoyable.

In a double-blinded test, ReSound LiNX Quattro was preferred 95% of the time for music listening, compared to other premium hearing aids.
